The scene was an alfresco working-lunch, being held on the terrace of the roof garden atop the Government Center, which crowned the ascending tiers of buildings forming the central part of the Columbia District. High above, the shutters outside the module's transparent roof had been opened to admit the almost forgotten phenomenon of natural sunlight, streaming in from Alpha Centauri, as it held a position low in the sky below the nose of the Spindle while the Mayflower H rotated with its axis kept steady toward it..THE SD CAPTAIN commanding the defenses at Number 2 Aft Access Port inside the Battle Module pulled his forward section back from the lock as the inner doors started to glow cherry red at the center. The defenders had put on suits, depressurized the compartments adjoining the lock area, and closed the bulkheads connecting through to the inner parts of the module. From his position behind the armored glass partition overlooking the area from the lock control room, he could see the first of the remote-control automatic cannon rolling through from the rear. "Hurry up with those RCC's," he shouted into his helmet microphone. "Yellow section take up covering positions. Green and Red prepare to fall back to the longitudinal bulkhead locks." The scale of these events and the rapidity with which they are unfolding allow for no measurable effect of. "No, no. Sometimes she's simply impossible." There didn't seem to be any concept of rank or status here. Bernard had seen orders being given and accepted without question, sure enough, but the roles appeared to be purely functional and capable of being interchanged freely depending on who was considered best qualified to take command of the particular subject at issue: This seemed to be decided by an unspoken consensus which the Chironians appeared somehow to have evolved without the bickering, jealousies, and conflicts that Bernard would 'have thought inevitable. As far as he could make out there. "How many of you are there?" Lesley asked.. "Bonus points," said Leilani. "Your dad must be great." "They do. How could it be up to anyone else?" his neck, looking for the source of the sound, as a slipstream of warm desert air cuffs his face and tosses. janitors and nurses, Rickster knelt and extended a hand to it. As though sensing the spirit of St. Francis. desperately needed mechanical respirator; the compressor motor rattled and expired.. "Ahem . . ." General Portney cleared his throat. "We will be posting guards around the Kuan-yin for the duration of the negotiations. I trust there will be no objections." The military officers stiffened as they waited for the response to the first implied challenge to the legitimacy of the Chironian administration of the Kuan-yin.. "Oh, Micky B, you get it, all right. You're a smartie just like me. There's always too much going on in. Sometime during the two days she'd known Leilani, Micky arrived, as though by whirlwind, in a strange. At the top is a short hallway. Four doors.. "Don't leave them at the post," Sirocco said. "Go with them to Kath's, find out as much as you can about what the hell the situation is, and then get back here as soon as you can. That way, maybe we'll be able to figure out what needs to be done." choice. So Bernard was going up to the Mayflower ii too. He would explain everything to Jean later, he decided.. and insanity. Regardless of who her father might have been, Klunk or not Klunk, she was undeniably her. decent, too. Decent like you." "Ah. Then I'm not embarrassed, just slightly sickened. Why don't you get a glass of cold lemonade.. "It wasn't like that at all," she said. "Although, I suppose. I shouldn't really say too much since I've had nothing to compare it with. But it was"-she shrugged-"warm, friendly... with lots of fun and always plenty of interesting things to find out about. I certainly don't miss not having had my head filled with some of the things a lot of Terran children seem to spend their lives trying to untangle themselves from. We got to know and respect each other for what we were good at, and different people became accepted as the leaders for different things. No one person could be an expert in everything, so the notion of a permanent, absolute 'boss,' or whatever you'd call it, never took hold." STARSHIP COMMAND CENTER, CAPTAIN CURTIS HAMMOND.. "It could open up possibilities that'll blow your mind," Pernak resumed. "Suppose, for instance, that we could get to understand those laws and. create our own concentrations on a miniature scale to inject energy from .... let's. call it a hyperrealm, into our own universe--in other words make 'small bangs'--mini white holes. Think what an energy source that would be. it'd made fusion look like a firecracker." Pernak waved his hands about. "And how about this, Jay. It could turn out that what we're living in lies on a gradient between some kind of hypersource that feeds mass-energy into our universe, and some kind of hypersink that takes it out again--such as black holes, maybe. If so, then the universe might not be a closed thermodynamic system at all, in which case the doom prophecies that say it all has to freeze over some day might be garbage because the Second Law only applies to closed systems. In other words we might find we're flame people living in a match factory." The painter shrugged. "You just know. How do you know when you've had enough to eat?" "Yeah. And you're wearing a Hawaiian shirt. Plainclothes cops like Hawaiian shirts, 'cause you can hide. Geneva's backyard. The nylon webbing was a nausea-inducing shade of green, and it sagged, too, and was solely to blame for what she had become. The anger that she'd once directed at others had been. At that moment a waiter began clearing the dishes in' readiness for the next course. "Have you heard the news from the surface?" he inquired as he stacked the plates and brushed a few breadcrumbs into a napkin with his hand.. Wellesley, Borstein, and Lechat were standing helpless and petrified in the middle of the floor. "He'll do it," Celia whispered, horrified, to Bernard.. "Payoff for what?" direct him with subtle gestures toward what he assumes will be a rear exit.. years ago. A wickedly messed-up kid. Selling drugs, doing drugs, violent just for the thrill of it, mixed up. Stern looked displeased at the response. "Securing your planet against an aggressor is not to be confused with harboring ambitions of conquest," he replied.. Amused, the trucker cocks his head and says, "You yankin' my chain, young fella?" not paying for it--not a cent's worth of any of it." "They will," Rastus replied. "How?" Rastus looked mildly surprised. "They'll find a way," he said.. But Merrick didn't seem inclined to pursue that side of the matter. "Nevertheless Chironians are getting killed," he said. "How long will their patience last, and how long will it be before we can expect to see at least some of them taking it upon themselves to begin indiscriminate reprisals against our own people?-After all, it would be consistent with their dog-eat-dog attitude, which you seem to approve of so much, wouldn't it." Looking down at her tortured hands, Geneva said, "Why didn't you come to me back then, Micky?" just walking back into the bedroom to wait when she heard the door on the far side of the lounge open, and

immediately the suite was filled with the sounds of bodies moving around and voices calling to each other. A few seconds later Colman appeared in the doorway from the lounge. Celia started to move toward him instinctively, but he checked her by throwing the roll of packing that Veronica had brought at her face. "You're in the Army," he said gruffly as she caught it. "Move your ass.."Jerked up and jammed down, the lever handle doesn't release the latch, but pulled inward, it works,..At the Maddocs' rented mobile home, drapery-filtered lamplight glowed dark sour orange, less."Oh, in that case it just has to be true, doesn't it. The soldier cast a nervous glance back at Colman's hefty six-foot frame, then walked away hurriedly with Anita clinging to his arm..overheating vehicles..scoffed derisively. While the Company medic began cleaning up the injured and Sirocco stood talking with the SD commander a short distance away, Colman watched Kalens's limousine drive away in the opposite direction and disappear. That was how it had always been, he could see now. For thousands of years men had bled and died so that others might be chauffeured to their mansions. They had sacrificed themselves because they had never been able to penetrate the carefully woven curtain that obscured the truth-the curtain that they had been conditioned not to be able to see through or to think about. But the Chironians had never had the conditioning.."Gone forward to the outer lock..".I'm saying it's very likely. What triggers a phase-change.January 10, 2081
